5-DAY SEMINAR ANITA WILLOUGHBY 2017

**JIN SHIN JYUTSU®** Physio Philosophy stems from the “beginningless beginning of the universe” a truly timeless art. It concentrates on the harmony and harmonizing the energy within the body rather than on disharmony and problems.

The art of Jin Shin Jyutsu shows us that all we need to harmonize ourselves physically, mentally and spiritually (to be in harmony with the universe) lies within ourselves.

The seminar teaches the awareness of the universal energy flows that maintain our total being in harmony: how to keep the energy flow in balance through the usage of our hands as “jumper cables” whose simple application can remove blockages that keep body, mind and spirit from functioning properly.

**PART 1** (Sat-Mon) The foundation, introduces the dynamic qualities of the 26 Safety Energy Locks, the Trinity Flows, the concept of depths, the Physio-philosophy of Jin Shin Jyutsu

**PART 2** (Tues-Wed) Introduces the 12 organ flows listening to the pulses, the Special Body flows and how they can contribute to harmonizing body, mind and spirit

### About ANITA

Anita’s wisdom regarding the trinity of body, mind, and spirit arises out of a lifetime of experiential, professional, and spiritual learning. Her experiences as

a dancer, mother, and healer, as well as her study of the Kabbalah, provide her with a rich garden of knowledge from which she spontaneously plucks insights when adapting to the particular needs of a group of students.
